KENT GROUP EVENT

Visit a Passivhaus Plus Herne Bay

Saturday, 11 May 2024

2 tours:

11.00 am or 2.00 pm

Construction is nearing completion on a 3 bed detached timber framed house, built to the Passivhaus Plus standard- as close to 'net zero' as practical. The self-build owners have offered to open their triple glazed doors for a day in advance of the formal Passivhaus Open Days (28-30 June) for local AECB members and friends.

Spaces are limited, so if you would like to attend - book early. We are offering a morning and an afternoon visit; state which you would prefer- 11.00 am or 2.00 pm. Car sharing will be requested due to limited parking on site.

The designer, Paul Mallion, will introduce the house. The owners, Wayne and Charlotte will talk about their experience in building the house.

Please confirm you place and preference for morning or afternoon tour to:

enquiries@conker.cc

This event is organised by Conker Conservation Ltd, Chartered Building Surveyors and Certified Passivhaus Designers. We have been dedicated to low energy sustainable building design since 1999. We have been running the AECB Kent Group since 2011.

The AECB is the UK longest established sustainable building charity, promoting energy efficiency since 1989, it was responsible for establishing the Passivhaus Trust, and provides training and guidance on sustainable buildings.
