## Save energy Stay Warm

With **FREE** upgrades 

### SAVE £££ ON YOUR ENERGY BILL WITH HOME EFFICIENCY UPGRADES

Struggling with an old heating system? If your home uses oil, LPG, solid fuel heating or an electric heating system and you're struggling with your energy bills, you could upgrade **at no cost to you**.

We can help you access **free energy saving upgrades** from the government for your home that could help you make savings on your fuel costs.

Here are some of the ways your home could be transformed:

#### INSULATION

Insulation to keep your home warm and help cut energy bills

#### HEATING CONTROLS

Or an energy efficient hot water solution helping you to only use heat when you need to

#### HEATING

A new low-carbon heating system

#### LIGHTING

Energy-efficient lighting which is cheaper to run
